

A Spell for: Summer's Abundance Candle Spell

moon phase

notes

materials

- one yellow candle
- money in any value
- cinnamon
- the nicest, fire-safe dish you own
- (optional) Queen of Pentacles and Nine of Pentacles tarot cards

the spell

Start by setting your candle on the dish or bowl on your altar or similar sacred space. Decorate the candle space with your paper money, coins, and tarot cards if you chose to use some.

Dress the candle with sprinkles of cinnamon. With each dash concentrate on the warmth of summer, the lush and beautiful Earth, the sun's radiance, and filling your life with these or similar feelings. Feel free to meditate after a few sprinkles of cinnamon are applied with these sensations and allowing them to penetrate your life with blessings of abundance.

Light the candle and leave lit until burned down, or revisit and relight if using a larger candle. Watch abundance flow to you as the candle burns down.
